Education

Ecole Polytechnique Federale de Lausanne June 2028
MSc Digital Humanities

Ecole Polytechnique June 2026
Mathematics and Computer Science - Bachelor of Science Programme *GPA: 4.01/4.3*
University of Toronto *- Exchange Semester* *GPA: 4.0/4.0* December 2025

Research Experience

Research Assistant October 2024 - March 2026
médialab Sciences Po | Supervised by Achim Edelmann
Analyzed the factors that affect the spread of misinformation on social media, with attention given to users' political identity and the topic they posted.
Created and tested hypotheses based on previous scholarship, including how misinformation exposure affects the misinformation spread in communities and how the deplatforming of Qanon users on Twitter after January 6th riots has affected the structure of misinformation posting communities.

Project leader February 2025 - June 2025
CREST | Supervised by Samuel Rufat
Leading the project concerning the role of moderators on Reddit in disaster management, analysing events of Southern California 2025 wildfires and Hurricane Milton.

Intern July 2024 - August 2024
médialab Sciences Po | Supervised by Achim Edelmann
Worked as a Data Analyst for a Computational Social Sciences project, tackling the issue of misinformation, focusing on the clusters of topics across languages.

Conferences/Workshops

CS2 Italy 19-21 May 2026
Examining the role of volunteer Reddit moderators as Social Media Disaster Managers.
A poster regarding the role and impact of moderators on Reddit during crises, focusing on the impact of moderation on the behaviour of r/LosAngeles users during the Southern California 2025 Wildfires.

Valeur du jeu et du jouer 6 May 2026
Good Game(s). Omnivores and Snobs on Steam.
A presentation with Samuel Coavoux showing the results of my Bachelor Thesis - an investigation into the measurement of legitimacy of video games and an application of it to test the cultural omnivore theory.

Skills

Programming Languages: C++, R, LaTeX, Assembly, Python (pandas, NumPy, PyTorch, Transformers, NetworkX, CuGraph, Scipy, Matplotlib)
Languages: Polish - Native, English - C1, French - B2, German - A2

Awards

Ecole Polytechnique Excellence Scholarship September 2023 - June 2026
Scholarship awarded to the best ∼10 students in the Bachelor Programme of Ecole Polytechnique in each cohort. The scholarship recipients are evaluated annually.

Talenty Scholarship August 2023 - ongoing
Financial scholarship awarded to the best ∼50 students in Poland, requiring outstanding academic record and ongoing societal contributions in the form of volunteering.

Volunteering

La Chorba Paris January 2025 - June 2026
Engaged in weekly distributing food and resources to the unhoused people on the streets of Paris, with particular emphasis on creating human connection.
